*Note: Data from the two SEER files are consistent for 1985–97. Rates are age-adjusted to year 2000 U.S. standard population.*

**NOTES**

a. Maps in this annex are based on incidence and mortality estimates for ages 0–69, consistent with reporting in all DCP3 volumes. Global cancer statistics are estimates for 2012 and have been provided by the International Agency for Research on Cancer from its GLOBOCAN 2012 database.

b. A companion annex 6B, Recommendations for Colorectal Cancer Treatment in Four Levels of Facility Resources, is also available.
