
APPENDICES

Appendix A. BestPractice Alert

BestPractice® alert in the electronic health record that contained a link to electronically refer the patient to the *Connect for Health* study.

The image shows a software dialog box titled "BestPractice Advisory - Nolan,Baby U". The main content area has a yellow background and contains the following text: "Based on today's height and weight, this 2 - 12 year old child has a Body Mass Index \geq 85th percentile for his/her age and sex. This child will automatically be referred to the Connect 4 Health study when you click "Accept". If you do not want to refer the patient to the health study, please click one of the reasons for declining below. Body Mass Index (BMI) is 17 kg/(m²). 89th percentile based on BMI-for-age and sex". Below this text is a text input field labeled "Acknowledge reason:" with a search icon and a document icon to its right. Underneath the input field are two buttons: "Medical Exclusion" and "Personal Exemption". At the bottom left of the dialog, there is a checked checkbox with a house icon and the text "Place order: REFERRAL TO CONNECT 4 HEALTH STUDY". At the bottom right of the dialog are two buttons: "Accept" and "Cancel".
